

TO: **Carol DiBello**, Submerged Lands Coordinator
Dept. of Conservation,
Bureau of Parks & Lands

FROM: Department of Marine Resources (DMR)

SUBJECT: REQUEST FOR PROJECT REVIEW

PROJECT: Applicant: City of Rockland
Location: Rockland Harbor (Public Landing)
Type of Project: Floats

The above proposed project has been carefully reviewed and considered by DMR personnel.

DMR understands that the applicant is proposing to install a line of six 10 ft. x 30 ft. seasonal floats that would extend northeasterly from existing floats. They would be 99 ft. distant at their closest point from the Pearl Restaurant floats to the north.

The area the floats would go has between 6 and 8 ft. of water at Mean Low Tide. The bottom is reported to be sandy/mud.

This project as proposed should not cause any significant adverse impacts to marine resources, traditional fishing, riparian access, or recreation and navigation.

Brian M. Swan
DMR Environmental Coordinator
