Hi Jared,

Attached are our comments to the BPL.

Brian

**Subject:** Landings Marina

Brian:

I'm following up to a voicemail I left you (this morning) regarding the Landings Marina expansion in Rockland. The project involves the installation of 16 new, one-foot diameter wood pilings for support of a pier extension and additional floats in subtidal areas near the existing marina.

I believe the BPL is already involved in this project through the submerged lands lease program. If you reviewed the project on behalf of DMR please forward your comments to me. Please call or email for further clarification.

Thanks!  
Jared
