

TO: **Andrea Lapointe**, Project Manager
Dept. of Environmental Protection,
Bureau of Land & Water Quality

FROM: Department of Marine Resources (DMR)

SUBJECT: REQUEST FOR PROJECT REVIEW

PROJECT: DEP Application #: L-25674-2F-A-N
Applicant: FMC Corporation
Location: Rockland (Lermond Cove, Rockland Harbor)
Type of Project: After-The-Fact Building

The above proposed project has been carefully reviewed and considered by DMR personnel.

DMR understands that the applicant has constructed a 284 sq. ft. electrical switchgear building within 25 ft. of the Highest Annual Tide (HAT) on paved made land adjacent to other buildings that make up their facility.

The project is within an 11.52 acre industrial site that is has been in use since 1978 as a consumer chemical and additive manufacturing facility. Much of the land, including the project site, is made of fill with granite bulkhead along the water. Adjacent to the site are other buildings and paved parking area.

This project as proposed should not cause any significant adverse impacts to marine resources, traditional fishing, recreation, navigation, or riparian access.

Brian M. Swan
DMR Environmental Coordinator
