Bureau of Parks & Lands

FROM: Department of Marine Resources (DMR)

SUBJECT: REQUEST FOR PROJECT REVIEW

PROJECT: Applicant: O'Hara Corporation
Location: Rockland Harbor
Type of Project: Travel Lift Enlargement

The above proposed project has been carefully reviewed and considered by DMR personnel.

DMR understands that the applicant is proposing to enlarge an existing 58 ft. x 25 ft. travel lift to a 74 ft. x 36 ft. structure.

The proposed project site is at the Journey's End marina which is adjacent to and just to the west of the U.S. Coast Guard Station Rockland. The existing structure, an integral part of the marina, has been in place for many years. Floats, also part of the marina, are adjacent to the existing travel lift on both the north and south sides.

This project as proposed would not result in any significant adverse impacts to traditional fishing, recreation, navigation or riparian access.

Brian M. Swan
DMR Environmental Coordinator
