

FRIENDS OF PENOBSCOT BAY

MISSION STATEMENT

Adopted 9/14/12

The Friends of Penobscot Bay will promote healthy and diverse Penobscot Bay ecology and environments, that support and maintain abundant and reliable commercial and recreational fisheries and shellfisheries, amid world class scenic Maine coasts, waters and islands.

In consultation with the Bay's fishery sectors and bay-dependent nature tourism sectors, the Friends of Penobscot Bay will achieve these objectives by working with or against local, state and federal agencies and decisionmakers, using the scientific community, anecdotal evidence, community researchers, the media and the people to achieve protection and replenishment of the resources of Penobscot Bay.
