

WOODARD & CURRAN

TERMS & CONDITIONS

the operations of any person or entity engaged by Engineer in the performance of services under this agreement. If Engineer is required to restore the land to its former condition, such work will be accomplished and the costs, plus fifteen percent (15%), will be added to Engineer's fee.

16.1.6 Subsurface Risks. Client recognizes that special risks occur whenever engineering or related disciplines are applied to identify subsurface conditions. Even a comprehensive sampling and testing program, implemented with appropriate equipment and experience by personnel under the direction of a trained professional who functions in accordance with a professional standard of practice may fail to detect certain hidden conditions. For similar reasons, actual environmental, geological, and geotechnical conditions that the Engineer properly inferred to exist between sampling points may differ significantly from those that actually exists. The Client acknowledges these risks.

16.1.7 Engineer will exercise reasonable and professional care in seeking to locate subterranean structures in the vicinity of proposed subsurface explorations at the Project site. Engineer will contact public utilities and review plans and information, if any, provided by public utilities, public agencies and Client. So long as Engineer observes such standard of care, Engineer will not be responsible for any unavoidable damage, injury of interference with any subterranean structures, pipe, tank, cable or any other element or condition if not called to Engineer's attention prior to commencement of services or which is not shown, or accurately located, on plans furnished to Engineer by Client or by any other party, or which could not have been reasonably identified by Engineer.

17. Samples

17.1 Non-Hazardous Samples. Engineer will dispose of all soil, rock, water, and other samples thirty (30) days after submission of Engineer's initial report. Client may request, in writing, that any such samples be retained beyond such date, and in such case Engineer will ship such samples to the location designated by Client, at Client's expense. Engineer may, upon written request, arrange for storage of samples at Engineer's offices at mutually agreed storage charges. Engineer will not give Client prior notice of intention to dispose of samples.

17.2 Hazardous Samples. Although the Client shall have the obligation to dispose of any "hazardous" samples, if samples collected from the Project site contain substances defined as "hazardous" by federal, state, or local statutes, regulations, codes, or ordinances, Engineer shall, at its option, have the right to: (1) dispose of samples by contract with a qualified waste disposal contractor; (2) in accordance with Client's

written directions, ship such samples by an appropriately licensed transporter to a licensed disposal site; or (3) return such samples by an appropriately licensed transporter, to Client. Client shall pay all costs and expenses associated with the collection, storage, transportation, and disposal of samples. If Client requests in writing, that any such sample be retained for a period in excess of thirty (30) days, Engineer will store such samples at Client's expense and Client will pay an additional fee as charged by Engineer in accordance with its standard laboratory schedule for storage of samples of a "hazardous substance."

18. Miscellaneous

18.1 This Agreement shall be governed and construed in accordance with the laws of the State of Maine.

18.2 The prevailing party in any lawsuit, appeal, bankruptcy or other legal proceeding relating to this Agreement or its appendices shall be entitled to recover from the non-prevailing party all reasonable attorneys' fees, costs and expenses incurred by the prevailing party, and in all efforts to collect any recovery by the prevailing party. Any action to enforce or interpret this Agreement shall be commenced or maintained only in the judicial or administrative tribunal in the jurisdiction of the State of Maine, and each party waives any venue, convenient forum, removal, jurisdiction, or other rights to the contrary.

18.3 Section headings in this Agreement are included herein for convenience of reference only, and shall not constitute a part of the Agreement or for any other purpose.

18.4 The Client and Engineer respectively, bind themselves, their partners, successors, assigns and legal representatives to the other party to this Agreement and to the partners, successors, assigns and legal representatives of such party with respect to all covenants of this Agreement. Neither the Client nor Engineer shall assign, sublet or transfer any interest in this Agreement without the written consent of the other.

18.5 This Agreement represents the entire and integrated Agreement between the Client and Engineer, and supersedes all prior negotiations, representations or agreements, either written or oral, and may be amended only by written instruments signed by both Client and Engineer.

18.6 If any provision of this Agreement is held invalid or unenforceable by any court of final jurisdiction, it is the intent of the parties that all other provisions of this Agreement be construed to remain fully valid, enforceable and binding on the parties.

WOODARD & CURRAN TERMS & CONDITIONS

18.7 Any estimates or opinions of Project or construction costs are provided by Engineer on the basis of Engineer's experience and qualifications as an engineer and represents its best judgment as an experienced and qualified engineer familiar with the construction industry. Since Engineer has no control over the cost of labor, materials, equipment or services furnished by others or over competitive bidding or market conditions, it cannot guarantee that proposals, bids or actual Project costs or construction costs will not vary from any estimates or opinions of costs prepared by Engineer. Similarly, since Engineer has no control over building operation and/or maintenance costs, Engineer cannot and does not guarantee that the actual building system operating or maintenance costs will not vary from any estimates given by Engineer. No fixed limit of construction costs is established as a part of this Agreement.
